

Master Classes with Jeffrey K. Zeig, Ph.D.
in New York City
in Ericksonian Clinical Hypnotherapy

Experienced, licensed psychotherapists of all persuasions who are trained in hypnosis are invited to attend a four-day supervision workshop to greatly enhance therapeutic skills, and promote both personal and professional growth. The program is based on expert modeling and direct feedback of attendee's clinical work.

This intensive workshop is EXPERIENTIAL and is limited to twelve attendees. The format allows each person to assume four roles: Twice you will get to be patient, once with Dr. Zeig and once with a peer. As patient you work on a personal issue, not a case. You also will serve as supervisor for a dyad, and therapist with a peer. Dr. Zeig supervises each trio (patient, therapist and supervisor). The environment is intimate and supportive. The learning experience is rich and fertile. Although focused on Erickson-derived approaches, this program is an opportunity to advance clinical skills no matter what your professional orientation and level of experience.

Each 4-day (9 AM to 5 PM) workshops cost \$795.00.

The classes are scheduled for:
