

A Practice Practice-Expanding Vision of Healing THE PROBLEM OF EVIL

by Eric Greenleaf, Ph.D.

Directed toward therapists of all persuasions who deal with the most difficult issues in therapy, *The Problem of Evil* provides a practice-expanding vision of healing. When common notions of compassion and empathy fail in the face of dilemmas that seemingly defy solution, the use of trance and story brings therapy to the next level. Greenleaf's synthesis of the narrative, trance, and relationship perspectives --and the integration of his own innovative practice of "passing the trance" --make this book a uniquely compelling addition to the literature.

Most of the disturbances alluded to in *The Problem of Evil* are the consequence of pain, humiliation, and confusion suffered at the hands of more powerful persons. Greenleaf skillfully demonstrates how the means once used to hold clients captive in perilous patterns of victimization can become the means to free these same clients. Images can help diffuse nightmares; trance can move individuals toward advocating for themselves; and the therapeutic relationship can become a source of new information and positive influence.

What people are saying ...

"... a remarkable and original book about therapeutic compassion and healing and the creative approaches that restore courage and freedom to individuals whose lives have been altered by the forces of human destructiveness."

--Harriet E. Hollander, Ph.D.

"... a variety of constructive means for promoting clients' healing via their capacities for imagination and creative re-storying."

--Michael F. Hoyt, Ph.D.

ABOUT THE AUTHOR: Eric Greenleaf, Ph.D., a psychologist in practice in Berkeley, California, is Founder and Director of the Milton H. Erickson Institute of the Bay Area. Dr. Greenleaf has done extensive research into the trance and healing phenomena of Bali. He was the first recipient of the Milton H. Erickson Award of Scientific Excellence for Writing in Hypnosis.
