

The Handbook of Ericksonian Psychotherapy

Edited by Brent B. Geary, Ph.D.
Jeffrey K. Zeig, Ph.D.

December 5, 2001, marked the 100th anniversary of the birth of Milton H. Erickson. In this volume, you will meet 40 of the field's innovators, who have come together to celebrate -- to demonstrate -- the breadth and scope of his legacy. Editors Geary and Zeig have gathered together a diverse panel of clinician-teachers to clarify the effectiveness of Ericksonian psychotherapy for everything from pain management to trauma resolution - and the clinical considerations attending its use. Together, these contributions showcase the vitality and relevance of Erickson's ideas for today -- and beyond.
